

# Kolicevo Mill

The Kolicevo mill is conveniently located to serve both the East and West European markets. It was founded in 1920 and produces both virgin fibre and recycled fibre-based cartonboard. The Mill specialises in the production of cartonboard weights between 210 and 550 gsm, which are mainly used in food, cosmetic and pharmaceutical packaging.

The Kolicevo mill combines state-of-the-art technology and processes with a highly skilled and knowledgeable workforce. Environmental protection is an important priority at the Kolicevo mill. Measures to protect the environment are not just limited to production, but also include upstream and downstream areas of the supply chain, including purchasing and logistics.

## Finishing Equipment

We supply our products in the following formats:

Formats	KM2	KM3
maximum (in mm)	1400 x 1600	1400 x 1600
Reels		
maximum width (in mm)	2200	2400
maximum weight (in kg)	3500	3500
Outer diameter		
minimum	800	800
maximum	1650	2050
Core diameter (in mm)	76/100/150/300	

## Machine specifications

	KM2	KM3
Machine width	220 cm	440 cm
Substances (gsm)	215 - 450	210 - 500
Caliper (µm)	320 - 682	245 - 670
Qualities	GC	GT, GD, LIN
Top coating	Blade	Blade
Formers	5 cylinder moulds 2 fourdriniers	8 vacuum formers

## Mill Certificates

- FSC
- ISO 9001
- HACCP
- HALAL
- Isega on request

## Products

- Excellent TOP  
(specification available on request)
- Kromopak  
(specification available on request)
- MM Liner  
(specification available on request)
