

Baiersbronn Mill

High quality virgin fibre-based cartonboard has been produced at Baiersbronn since 1951. The mill has built its reputation with Optimus White Back and Excellent Cream Back folding boxboard, which are mainly used in food, cosmetics and pharmaceutical packaging, whilst their barrier-coated versions are used in bakery and frozen food.

The Baiersbronn mill combines state-of-the-art technology and processes with a highly skilled and knowledgeable workforce. Environmental protection is an important priority at Baiersbronn and has been for many years. Measures to protect the environment are not just limited to production but also include upstream and downstream areas of the supply chain, including purchasing and logistics.

Finishing Equipment

Products are supplied in the following standard formats (non-standard sizes are available on request).

Formats	KM1
minimum (in mm)	400 x 600
maximum (in mm)	1200 x 1600
Reels	
minimum width (in mm)	400
maximum width (in mm)	2190
maximum weight (in kg)	2000
Outer diameter	
minimum	1200
maximum	1800
Core diameter (in mm)	150/300

Machine specifications

	KM1
Machine width	219 cm
Substances (gsm)	230 - 450
Caliper (µm)	345 - 800
Qualities	GC
Top coating	Blade
Formers	3 fourdriniers

Mill Certificates

- FSC
- HACCP
- ISO 9001
- HALAL
- Isega on request
- ISO 50001:2011
