

Cartonneries de Gondardennes: Specialists in the fabrication and manufacture of Corrugated sheets.

Founded in 1897 and 100% owned by family shareholders, the CGW group is one of the last of the French Independents in the corrugated packaging industry. We offer a wide range of corrugated cardboard sheets with over 500 grades covering uses such as the manufacture of regular cases, die-cuts or point of sale displays.

The CGW group is a family run company that is historically respectful of the environment, with an industrial vision of sustainability, giving man an essential place. The group values and prioritises the recycling of local waste paper to be converted into paper and then into corrugated board.
