

Eerbeek Mill

Eerbeek is the paper making centre of the Netherlands and started producing folding cartonboard in 1910. Virgin fibre-based cartonboard grades, including Greenplex, are produced at Eerbeek, and are mainly used in food, cosmetics and pharmaceutical packaging.

The Eerbeek mill combines state-of-the-art technology and processes with a highly skilled and knowledgeable workforce. Environmental protection is an important priority at Eerbeek and has been for many years. Measures to protect the environment are not just limited to production but also include upstream and downstream areas of the supply chain, including purchasing and logistics.

Finishing Equipment

We supply our products in the following formats:

Formats	KM3
maximum (in mm)	1200 x 1600
Reels	
maximum width (in mm)	2300
maximum weight (in kg)	3500
Outer diameter	
minimum	1300
maximum	1800
Core diameter (in mm) if applicable to the machine	152/302

Machine specifications

	KM3
Machine width	326 cm
Substances (gsm)	215 - 450
Caliper (µm)	315- 845
Qualities	GC (including Freeze and Grease)
Top coating	Blade
Formers	3 fourdriniers

Mill Certificates

- FSC
- ISO 14001
- ISO 9001
- HACCP
- Isega on request
- ISO 50001:2011

Products

- Albaplex (specification on request)
- Linoplex (specification on request)
- Silvaboard
- Silvawhite
