

Kwidzyn Mill

MM Kwidzyn is one of Europe's leading producers of premium virgin fibre cartonboard (FBB) for pharmaceutical and luxury packaging, packaging kraft papers (PKP), uncoated fine papers (UFP) for office and offset printing as well as pulp.

It operates with three world-class board and paper machines and a fully integrated pulp mill.

Thanks to superior tailor-made pulp produced on site, the consistent top quality of products is ensured. As an industrial key player in Poland, MM Kwidzyn actively implements the principles of sustainability and social responsibility in all areas of its activity. Through the MM Kwidzyn Charity Foundation, established in 1994, MM also fulfils its social responsibility and supports those in need.

Finishing Equipment

Products are supplied in the following standard formats (non-standard sizes are available on request).

Formats	BM4
minimum (in mm)	380 x 400
maximum (in mm)	1240 x 1490
Reels	
minimum width (in mm)	500
maximum width (in mm)	2300
maximum weight (in kg)	2700
Outer diameter	
minimum	1200
maximum	1600
Core diameter (in mm)	150/300/305

Machine specifications

	BM4
Machine width	430cm
Substances (gsm)	190 - 350
Caliper (µm)	282 - 620
Qualities	GC

Mill Certificates

- FSC • HACCP
- ISO 9001 • HALAL
- ISO 22000 • ISO 500001
- ISO 14001 • ISEGA on request
